

MYCRICKET LIVE SCORE – UNKNOWN PLAYERS

Please refer to Association rules regarding the use of unregistered players in fixtured matches

MyCricket Live Score – Team Selection allows you to add an Unknown Player – enter any first name and last name to score the match in full.

Where possible, the player should register via PlayCricket prior to taking the field, but Unknown Player can be used for:

- Players not registered to their club or association
- Players who are registered, but playing for the opposition

Step 1 – Add Unknown Player on Team Selection screen of the Scorer App

Step 2 – Score the match and upload the result as normal

Step 3 – Login to the MyCricket Admin site and:

- Register the player correctly (either PlayCricket or manual)
- Transfer the player to your club (refer to Association rules)

Step 4 – Admin site ... Matches -> Select Team and follow the prompts to replace the Unknown player with the correct player

Refer to MyCricket Support article for more information -
